

A green paradise for children & young people

The Scout Camp Austria lies in a wonderful natural landscape near the mountains and lakes of the "Salzkammergut" (= Austrian Lake District). A real adventure paradise just a few kilometres from the Lake Attersee.

3 houses as well as the 50,000 m² campsite offer the ideal nest for small and large groups – for playful children as well as for active young people. The combination of

wild meadows surrounding the meanders of the stream "Dürre Ager" as well as woodland where the last remains of celtic culture can be found guarantee that the time spent here will be a true adventure. A day in our own high rope course "High Kix" offers a real highlight for any camp.

The Scout Camp Austria is a meeting point for Scouts & Guides from all over the world.
